Contents

Alföldi, P., see Obál Jr., F., et al. 73

Anis, N., see Kelly, S. S., et al. 97

Banchero, N., see Kayar, S. R. 319

Baumbach, L., see Skøtt, O. 232

Bechem, M., Pott, L.
Removal of Ca current inactivation in dialysed guinea-pig atrial cardioballs by Ca chelators 10

Ben-Ishay, D., see Yagil, M., et al. 61

Benndorf, K., Boldt, W., Nilius, B.
Sodium current in single myocardial mouse cells 190

Bergen, F. von, see Reichmann, H., et al. 1

Bernardini, G., see Peres, A. 266

Bogaert, P. P. van
Pace-maker current changes during intracellular pH transients in sheep cardiac Purkinje fibres 29

Boldt, W., see Benndorf, K., et al. 190

Bonjour, J., see Caverzasio, J. 227

Bottà, G., see Meyer, G., et al. 378

Boyett, M. R., see Kodama, I. 214

Busselen, P.
Suppression of cellular injury during the calcium paradox in rat heart by factors which reduce calcium uptake by mitochondria 166

Butlen, D., Morel, F.
Glucagon receptors along the nephron: [^{125}I]glucagon binding in rat tubules 348

Caverzasio, J., Bonjour, J.-P.
Mechanism of rapid phosphate (Pi) transport adaptation to a single low Pi meal in rat renal brush border membrane 227

Chabala, L. D., Sheridan, R. E., Hodge, D. C., Power, J. N., Walsh, M. P.
A microscope stage temperature controller for the study of whole-cell or single-channel currents 374

Clausen, T., see Kjeldsen, K., et al. 365

Constanti, A., see Galvan, M., et al. 252

Constanti, A., Galvan, M., Franz, P., Sim, J. A.
Calcium dependent inward currents in voltage-clamped guinea-pig olfactory cortex neurones 259

Conti, M., see Eusebi, F., et al. 382

Cook, D. I., see Schneider, G. T., et al. 354

Cook, D. L., see Satin, L. S. 385

Cranston, W. I., see Hellon, R. F., et al. 290

Cremaschi, D., see Meyer, G., et al. 378

DeFeo, T. T., Morgan, K. G.
Responses of enzymatically isolated mammalian vascular smooth muscle cells to pharmacological and electrical stimuli 100

Dolci, S., see Eusebi, F., et al. 382

Dóra, E.
Effect of adenosine and its stabile analogue 2-chloro-adenosine on cerebrocortical microcirculation and NAD/NADH redox state 208

Doroshenko, P. A., see Kostyuk, P. G., et al. 88

Dubach, U. C., see Le Hir, M. 238

Durasin, I., see Frick, A., et al. 172

Endou, H., see Uchida, S., et al. 278

Eusebi, F., Grassi, F., Fratamico, G., Dolci, S., Conti, M., Stefanini, M.
Cell-to-cell communication in cultured Sertoli cells 382

Fawcett, A. A., see Hales, J. R. S., et al. 203

Ferell, W. R., Russell, N. J. W.
Plasma extravasation in the cat knee-joint induced by antidromic articular nerve stimulation 91

Fontana, M. D., see Vital Brazil, O. 45

Franz, P., see Constanti, A., et al. 259

Franz, P., see Galvan, M., et al. 252

Fratamico, G., see Eusebi, F., et al. 382

Frick, A., Neuweg, M., Durasin, I.
PTH independent sex difference in renal handling of inorganic phosphate in the rat: effect of oophorectomy 172

Gage, P. W., see Schneider, G. T., et al. 354

Galvan, M., see Constanti, A., et al. 259

Galvan, M., Constanti, A., Franz, P.
Calcium-dependent action potentials in guinea-pig olfactory cortex neurones 252

Götz, R., see Moll, W. 332

Grassi, F., see Eusebi, F., et al. 382

Guder, W. G., see Wirthensohn, G. 94

Hagberg, H.
Intracellular pH during ischemia in skeletal muscle: relationship to membrane potential, extracellular pH, tissue lactic acid and ATP 342

Hales, J. R. S., Jessen, C., Fawcett, A. A., King, R. B.
Skin AVA and capillary dilatation and constriction induced by local skin heating 203

Hartung, K.
Potentiation of a transient outward current by Na^+ influx in crayfish neurones 41

Hartung, K., Rathmayer, W.
Anemonia sulcata toxins modify activation and inactivation of Na^+ currents in a crayfish neurone 119

Hellon, R. F., see Puri, R. 86

Hellon, R. F., Townsend, Y., Cranston, W. I.
Naloxone does not influence a pyrogen fever in rabbits 290

Hodge, D. C., see Chabala, R. E., et al. 374

Hoppeler, H., see Reichmann, H., et al. 1

Hosomi, H., Katsuda, S., Morita, H., Nishida, Y., Koyama, S.
Comparative responsiveness of the rapidly acting arterial pressure control system to quick mild hemorrhage and infusion in conscious rabbits 103

Hufschmidt, A.
Acoustic phenomena in the latent period of skeletal muscle: a simple method for in-vivo measurement of the electro-mechanic latency (EML) 162

Ishii, M., Yamakado, M., Murao, S.
The extrarenal effects of aldosterone on the distribution of extracellular fluid in conscious adrenalectomized-nephrectomized rats 273

Jessen, C., see Hales, J. R. S., et al. 203

Katsuda, S., see Hosomi, H., et al. 103

Kayar, S. R., Banchero, N.
Myocardial capillarity in acclimation to hypoxia 319

Kelly, S. S., Anis, N., Robbins, N.
Fluorescent staining of living mouse neuromuscular junctions 97

King, R. B., see Hales, J. R. S., et al. 203

Kjeldsen, K., Nørgaard, A., Clausen, T.
Effects of ouabain, age and K-depletionon K-uptake in rat soleus muscle 365

Klöss, S., see Ullrich, K. J., et al. 293, 300, 307, 311

Kodama, I., Boyett, M. R.
Regional differences in the electrical activity of the rabbit sinus node 214

Koller, A., see Messner, G., et al. 145

Kostyuk, P. G., Doroshenko, P. A., Martynyuk, A. E.
Fast decrease of the peak current carried by barium ions through calcium channels in the somatic membrane of mollusc neurons 88

Koyama, S., see Hosomi, H., et al. 103

Krishna, D. J., see Shetty, R. P. M., et al. 83

Lang, F., see Messner, G., et al. 131, 145

Lang, H.-J., see Ullrich, K. J., et al. 311

Le Hir, M., Dubach, U. C.
Uphill transport of pyrimidine nucleosides in renal brush border vesicles 238

Léoty, C., see Noireaud, J., et al. 185

Lorković, H.
Force and membrane potential in acetylcholine and potassium contractures of denervated mouse muscles 50

Lovick, T. A.
Descending projections from the ventrolateral medulla and cardiovascular control 197

Macchia, D. D., see Shetty, R. P. M., et al. 83

Malmström, K., Murer, H.
Ca^{2+}-dependent protein phosphorylation in brush border membranes of rat kidney proximal tubules 358

Martynyuk, A. E., see Kostyuk, P. G., et al. 88

Mathieu-Costello, O., see Reichmann, H., et al. 1

Messner, G., Koller, A., Lang, F.
The effect of phenylalanine on intracellular pH and sodium activity in proximal convoluted tubule cells of the frog kidney 145

Messner, G., Oberleithner, H., Lang, F.
The effect of phenylalanine on the electrical properties of proximal tubule cells in the frog kidney 138

Messner, G., Wang, W., Paulmichl, M., Oberleithner, H., Lang, F.
Ouabain decreases apparent potassium-conductance in proximal tubules of the amphibian kidney 131

Meyer, G., Rossetti, C., Bottà, G., Cremaschi, D.
Construction of K^+- and Na^+-sensitive theta-microelectrodes with fine tips: an easy method with high yield 378

Moll, W., Götz, R.
Pressure-diameter curves of mesometrial arteries of guinea pigs demonstrate a non-muscular, oestrogen-inducible mechanism of lumen regulation 332

Morel, F., see Butlen, D. 348

Morgan, K. G., see DeFeo, T. T. 100

Morita, H., see Hosomi, H., et al. 103

Murao, S., see Ishii, M., et al. 273

Murer, H., see Malmström, K. 358

Neuweg, M., see Frick, A., et al. 172

Nilius, B., see Benndorf, K., et al. 190

Nishida, Y., see Hosomi, H., et al. 103

Noireaud, J., Léoty, C., Schmidt, H.
Acetylcholine-sensitivity in fast and slow twitch muscle of normal and dystrophic (C57 BL/6J dy^{2J}/dy^{2J}) mice 185

Nomoto, S., Nomoto-Kozawa, E.
EMG activity in pectoral and femoral muscles during spinal cord cooling in exercising pigeons 337

Nomoto-Kozawa, E., see Nomoto, S. 337

Nonoguchi, H., see Uchida, S., et al. 278

Nørgaard, A., see Kjeldsen, K., et al. 365

Obál Jr., F., Rubicsek, G., Alföldi, P., Sáry, G., Obál, F.
Changes in the brain and core temperatures in relation to the various arousal states in rats in the light and dark periods of the day 73

Obál, F., see Obál Jr., F., et al. 73

Oberleithner, H., see Messner, G., et al. 131, 138

Oberleithner, H.
Intracellular pH in diluting segment of frog kidney 244

Paddle, B. M.
A cytoplasmic component of pyridine nucleotide fluorescence in rat diaphragm: evidence from comparisons with flavoprotein fluorescence 326

Papavassiliou, F., see Ullrich, K. J. 150

Paulmichl, M., see Messner, G., et al. 131

Peres, A., Bernardini, G.
The effective membrane capacity of *Xenopus* eggs: its relations with membrane conductance and cortical granule exocytosis 266

Pette, D., see Reichmann, H., et al. 1

Pompeiano, O., Wand, P., Srivastava, U. C.
Influence of Renshaw cells on the response gain of hind-limb extensor muscles to sinusoidal labyrinth stimulation 107

Popovtzer, M. M., see Wald, H., et al. 56

Popovtzer, M. M., see Yagil, M., et al. 61

Potreau, D., Raymond, G.
Barium inhibition of the tonic component of frog atrial contraction 287

Pott, L., see Bechem, M. 10

Power, J. N., see Chabala, R. E., et al. 374

Puri, R., Hellon, R. F.
Transmission of low temperature information in the rat trigeminal system 86

Rack, M.
Effects of chemical modification of amino groups by two different imidoesters on voltage-clamped nerve fibres of the frog 126

Rathmayer, W., see Hartung, K. 119

Raymond, G., see Potreau, D. 287

Reichmann, H., Hoppeler, H., Mathieu-Costello, O., von Bergen, F., Pette, D.
Biochemical and ultrastructural changes of skeletal muscle mitochondria after chronic electrical stimulation 1

Robbins, N., see Kelly, S. S., et al. 97

Rossetti, C., see Meyer, G., et al. 378

Rubicsek, G., see Obál Jr., F., et al. 73

Rumrich, G., see Ullrich, K. J., et al. 293, 300, 307, 311

Ruppersberg, J. P., Rüdel, R.
Nomograms of the Goldman equation 178

Russel, N. J. W., see Ferrell, W. R. 91

Sáry, G., see Obál Jr., F., et al. 73

Satin, L. S., Cook, D. L.
Voltage-gated Ca^{2+} current in pancreatic B-cells 385

Scherzer, P., see Wald, H., et al. 56

Schmidt, H., see Noireaud, J., et al. 185

Schmidtmayer, J.
Behaviour of chemically modified sodium channels in frog nerve supports a three-state model of inactivation 21

Schneider, G. T., Cook, D. I., Gage, P. W., Young, J. A.
Voltage sensitive, high-conductance chloride channels in the luminal membrane of cultured pulmonary alveolar (type II) cells 354

Sheridan, R. E., see Chabala, R. E., et al. 374

Shetty, R. P. M., Krishna, D. J., Macchia, D. D.
Effects of albumin on resting membrane potential of toad semitendinosus muscles 83

Sillau, A. H.
Changes in soleus muscle capillarity, oxidative capacity and fiber composition in rats recovering from hyperthyroidism 67

Sim, J. A., see Constanti, A., et al. 259

Skøtt, O., Baumbach, L.
Effects of adenosine on renin release from isolated rat glomeruli and kidney slices 232

Srivastava, U. C., see Pompeiano, O., et al. 107

Stefanini, M., see Eusebi, F., et al. 382

Syrový, I.
Atrial and ventricular myosin ATPase – divergence with increasing animal species size 80

Townsend, Y., see Hellon, R. F., et al. 290

Uchida, S., Nonoguchi, H., Endou, H.
Localization and properties of NAD^+-dependent 15-hydroxyprostaglandin dehydrogenase activity in the rat kidney 278

Ullrich, K. J., Papavassiliou, F.
Contraluminal transport of hexoses in the proximal convolution of the rat kidney in situ 150

Ullrich, K., Rumrich, G., Klöss, S.
Contraluminal sulfate transport in the proximal tubule of the rat kidney. II. Specificity: sulfate-ester, sulfonates and amino sulfonates 293

Ullrich, K., Rumrich, G., Klöss, S.
Contraluminal sulfate transport in the proximal tubule of the rat kidney. III. Specificity: disulfonates, di- and tricarboxylates and sulfocarboxylates 300

Ullrich, K., Rumrich, G., Klöss, S.
Contraluminal sulfate transport in the proximal tubule of the rat kidney. IV. Specificity: salicylate analogs 307

Ullrich, K., Rumrich, G., Klöss, S., Lang, H.-J.
Contraluminal sulfate transport in the proximal tubule of the rat kidney. V. Specificity: phenolphthaleins, sulfonphthaleins, and other sulfo dyes, sulfamoylcompounds and diphenylamine-2-carboxylates 311

Vassort, G., see Ventura-Clapier, R. 157

Ventura-Clapier, R., Vassort, G.
Role of myofibrillar creatine kinase in the relaxation of rigor tension in skinned cardiac muscle 157

Vital Brazil, O., Fontana, M. D.
Unequal depolarization of the membrane of the rat diaphragm muscle fibres caused by veratrine 45

Wald, H., Scherzer, P., Popovtzer, M. M.
Parallel changes in red blood cell and renal Na-K-ATPase activity in adrenal and electrolyte disorders in the rat 56

Wald, H., see Yagil, M., et al. 61
